EDI is an abbreviation for electronic data interchange. Using EDI, companies send information digitally from one business system to another, using a standardized format. Some of the types of business systems to which EDI can connect include e-commerce solutions, ERP, WMS, CMS, accounting software and more.

EDI 101: What is EDI? Read the SPS EDI Guide | Supply ...

Accounting or accountancy is the measurement, processing, and communication of financial information about economic entities such as businesses and corporations. The modern field was established by the Italian mathematician Luca Pacioli in 1494. Accounting, which has been called the "language of business", measures the results of an organization's economic activities and conveys this ...
