News | Astronomy.com

Then I can help you... When I first started out in astronomy I had to learn all these things the hard way! I've spent hundreds of hours using telescopes and digging through libraries and thousands of pounds in buying equipment to learn everything I am going to tell you so you don't have to take all that time and spend all that money!

Course: Basic Astronomy with a Telescope

Travel across the universe (or is it universes?) to see stunning images of Saturn's rings, hear haunting sounds from distant black holes and catch an infectious sense of wonder about galaxies far, far away.

SkyNews - Astronomy & Stargazing Magazine of Canada

Question: "What does the Bible say about astronomy?" Answer: Astronomy is the science which studies the properties of the heavens and the objects therein and, as such, is devoted to the

analysis of a portion of God's creation. Genesis 1:1 declares that "in the beginning, God created the heavens" and that on the fourth day of His creative acts, "God made two great lights—the greater ...
