For now, I've been letting the player say "I use divinity strike" when his roll misses, but before I comment on it in any way. I'd like a bit of a better solution to make it more of a mystery when he could use it without slowing down all the cleric's attack rolls. Second, can guided strike be used for attack rolls for spells?

The Strike Editor maintains a realtime connection with the Strike module. When you save a user kit or instrument in the Strike Editor, it is saved directly to the SD card inserted in the module. Each time you open the Strike Editor, wait a brief moment for it to scan the Strike module and the SD card in its SD card slot.
