Open Design

Open Design Alliance is a non-profit technology consortium of 1200 member companies, working together to develop solutions for complex engineering design problems. Professional Development Team of more than 80 full-time engineers

Home | Open Design Alliance

The open-design movement involves the development of physical products, machines and systems through use of publicly shared design information. This includes the making of both free and open-source software (FOSS) as well as open-source hardware. The process is generally facilitated by the Internet and often performed without monetary compensation. The goals and philosophy of the movement are ...

Open-design movement - Wikipedia

Open Design is a marketing agency that helps small businesses advertise, build websites and define their brand. We accelerate business growth by creating unique partnerships, customized digital marketing solutions, and Website Design in Northern Virginia.

Ronen Kadushin coined the title "Open Design" in his 2004 Master's thesis, and the term was later formalized in the 2010 Open Design Manifesto. Moreover, the open source movement has been an influential factor in shaping open design. Rooted in software, the open source movement is a broad-reaching movement of individuals who support the use ...
