I retain a lot of what I read (like the Brain Audit) and while I conduct workshops, I can't do them until I have learned the material, which by definition, means I've retained it. I don't disagree with the concept — along the lines of “see one, do one, teach one” which refers to medical training, I think.

### **How To Retain 90% Of Everything You Learn**

To teach yourself to read, start by using a phonics program online or from your local library to help you learn the letter sounds on their own and in combination. Then, practice reading with materials that interest you, such as newspapers or magazine articles.

### **4 Ways to Teach Yourself to Read - wikiHow**

The program, provided by the Starfall Education Foundation, a nonprofit organization, was conceived by Dr. Stephen Schutz. As a child, Stephen had difficulty learning to read due to dyslexia. He wanted to create a website with untimed, multisensory interactive games that allow children to see, hear, and touch as they learn.

If you are a visual learner, you learn by reading or seeing pictures. You understand and remember things by sight. You can picture what you are learning in your head, and you learn best by using methods that are primarily visual. You like to see what you are learning. As a visual learner, you are usually neat and clean.

### **What's Your Learning Style? The Learning Styles**

Learning to read is the acquisition and practice of the skills necessary to understand the meaning behind printed words. For a fairly good reader, the skill of reading often feels simple, effortless, and automatic; however, the process of learning to read is complex and builds on cognitive, linguistic, and social skills developed from a very early age.
