New standards for conduct and compliance in the workplace, a decentralized workforce, and issues such as offshoring and outsourcing all add to the complexity of human resource management in today's business environment.

Masters in Human Resources | MBA in Human Resource Management

Human resource management is a contemporary, umbrella term used to describe the management and development of employees in an organization. Also called personnel or talent management (although these terms are a bit antiquated), human resource management involves overseeing all things related to managing an organization's human capital.
